The PPT-Booth

Portable Free-Standing Puppet Theatre

The PPT-Booth is a professional quality, one-person theatre that can be assembled in less than 10 minutes. This theatre weighs about 30 lbs and fits in a wheeled carrier bag with room to spare for puppets and props and features a backdrop scrim, and tie-down loops on the legs for outdoor venues (includes tent pegs). The dressing can be customized to suit your taste or uses. Additions such as Prop Trays or a roof are also available. The PPT-Booth's unique modular design allows for variations on playboard height and other modifications if so desired.
